

Project #1  
**Introduction to project handin**  
CpSc 8270: Language Translation  
Computer Science Division, Clemson University  
Brian Malloy, PhD  
August 18, 2016

## Due Date:

In order to receive credit for this assignment, your solution must meet the requirements specified in this document and be submitted, using the **handin** web page, by 8 AM, Monday, August 22<sup>nd</sup>, 2016. The handin close date is set at three days after the due date. If you submit after the due date but before the handin close date there will be a ten point deduction. No submissions will be accepted after the handin close date and no submissions will be accepted by email.

## Project Specification:

Use the handin web page to submit a compressed directory containing three items:

1. An ASCII README file. You must start with the ASCII README template contained in the directory for project #1 and fill in the appropriate information, including your clemson email address, and your first and last name.
2. A *square photo ID* that's 300x300 pixels and is labeled with all lower case letters as follows:

`<username>.{<jpg>,<png>,<bmp>}`

A *square photo ID* is an image of **you** whose width and length are the same. We should be able to identify you through this image.

3. A compressed directory that contains the above two items. To compress a directory you may use either tar or zip; rar files are never acceptable in CpSc 8270. To compress a directory, assume the items are in a directory labeled 'asg1'. The directory can be compressed in 1 of 2 ways:

```
tar zcvf asg1.tar.gz asg1
zip -r asg1.zip asg1
```

You must submit your assignment using the handin facility, which can be found at:

<https://handin.cs.clemson.edu>
